

AT2000 AllTouch® Remote Control

Description

The AT2000 AllTouch® remote control is an analog/digital compatible four-function remote control designed to complement the advanced analog and digital line of home communications terminals (HCTs). A true universal remote control, the AT2000 operates all Scientific-Atlanta advanced analog and Explorer® digital HCTs.

Features

- Scientific-Atlanta advanced analog and digital HCTs can be controlled without changing device codes
- Nonvolatile memory retains special user settings even when batteries are removed
- Keys labeled for both analog and digital HCTs
- AUX mode supports stereo audio receivers in addition to CD players
- Special assigned key functions for TV, VCR, or AUX devices
- Power key controls power to all entertainment devices
- VCR mode supports TV/VCR combination systems and DVD players
- Bypass Key automatically switches RF directly to TV or VCR
- LED provides visual feedback to the user indicating that the unit is working correctly and assists the user in setup and programming
- Channel up/down function can be restricted to targeted modes
- Recessed area for optional logo
- Batteries included. 6-month battery life under normal use
