

Model ER1 3-Function Remote Control for the Explorer® Digital Home Communications

Description

The ER1 Remote Control is an accessory for the Explorer® Digital Home Communications Terminal (DHCT). As a mode-less remote control, the ER1 operates the Explorer DHCT, a TV, and a VCR with an easy-to-understand layout.

Features

- Controls Scientific-Atlanta Explorer DHCTs
- Includes 6-pin program port to upgrade macros and device codes, move keys, etc.
- Includes nonvolatile memory which retains special user settings even when batteries are removed
- Switches signal automatically from RF directly to TV using a Bypass Key
- Controls VCR/VOD with a switch
- Displays visual feedback on the DHCT's LED indicating that the DHCT is working correctly and assists the user in setup and programming
- Includes batteries with a 6-month battery life, under normal use
